

Registration Open: ALM ICSC Conference Sponsorship Opportunities

Greetings members and partners,

The Alabama League of Municipalities is excited to announce our continued commitment in providing resources and tools to assist our municipalities in building vibrant communities.

For the past two years, ALM has participated in the International Council of Shopping Centers (ICSC) Conference and Tradeshow in Las Vegas, Nevada and in Atlanta, Georgia to determine how we could provide additional resources to our communities going through our Economic Development Academy. We have seen how municipal officials, economic development teams, developers and retailers have benefited from being able to gather and discuss strategies to expand their retail footprints.

Booth Sponsorship Opportunities:

\$5,000	Premium Sponsorship
\$2,500	Corporate Sponsorship
\$1,500	Strategic Partner Sponsorship
\$1,000	Community or Economic Development Organizations
\$750	Economic Development Academy Communities

This year, on behalf of our municipalities, we are again excited to invite our members and strategic partners to attend the ICSC Conference and Tradeshow in Las Vegas on **May 18-20, 2026**. This premier event offers community leaders and economic developers a unique opportunity to engage with key industry decision-makers and explore new retail investment opportunities.

We are looking to help recruit and amplify economic investment efforts in Alabama communities with our investment of a 20x20 state-of-the-art

booth in the exposition. This is a great opportunity to increase your community's visibility by showcasing what you have to offer with potential business investors, without having the burden of carrying these costs by yourself.

Those that participate in the sponsorship will be able to book times to have meetings in the booth space and will be featured in marketing design within the booth. Participants are responsible for bringing their own community marketing materials (electronic images, handouts, presentations, freebies, etc.) The booth will have minimal cabinet storage available. **For more information about requirements for the submitted booth materials or to watch a video about the event, please scan the QR codes below.**

**The deadline to register
for the expo booth space
is April 1, 2026.**

Please reach out to Mary Jackson Pollard at mpollard@almonline.org with any questions and to register as a cosponsor.

Participants will also need to submit their municipality or company logo to Mary by **April 1**.
